2015 Fund-a-need project completed

Last year, the Cathedral Festival of Lights gala raised funds to restore the south (pictured) and north rose windows. The stained glass masterpieces measure 26-feet in diameter. Both windows were removed, piece-by-piece, cleaned and fully restored by Gaytee Palmer Studios. The windows should now be able to withstand the harsh extremes of Minnesota's winters and summers for many decades to come. Thank you, donors!
